“The UK sector generates over £4.5 billion in sales annually and directly employs over 30,000 people – many in SMEs.”

Everyday millions of people use cleaning products to give them the clean and safe lifestyle that they expect and take for granted in the 21st century.

The UK soaps, detergents and cleaning products sector has been and should remain a success story for UK plc – it delivers the health and hygiene standards we pretty much take for granted today.
